**OEM Product Support Bulletin**

**No. 43**

**DATE:** February 25, 2009 (revision date)

**SUBJECT:** PILOT PRESSURE CONTROL

**Kit Part No. 410628**

**RATING:**  **DIRECTIVE**  
(Action is required)  **ALERT**  
(Safety Issue)

**INFORMATION**  **PRODUCT IMPROVEMENT**  
(Enhanced Product)

**Machine Model (s):** Ohio DE Series Locomotive Cranes

**Serial Numbers:** Machine with Dual Mode Hoist System

**Summary:** This Pilot Pressure Operated Control System replaces the Push/Pull Cable Control

**Operational Impact:**

- Fine Metering Control
- Accurate Speed Settings
- Eliminates the hesitation common with Push/Pull Cable design
- Pump Returns to Neutral with loss of charge pressure, lose of input signal and engine shut down
- Improved force feedback and Neutral Position
